STEEL

Passenger Coaches Will Soon Supercede Wood on all Railroads

The Pennsylvania Railroad Company will soon close a contract for 2,000 steel passenger coaches, and later on 1,000 more will be ordered and the road proposes to rid itself of every wooden coach operated upon its main lines.

The car company officials state that the lead of the Pennsylvania Railroad in this matter will be followed by other railroads, and he predicts that within 10 years' time all the principal railroad companies in the United States will be operating steel passenger cars in lieu of coaches of the present flimsy wooden construction.

MIGHT WORK HERE

Front Seats at Church.

As a general thing it has always been the custom of ushers at public places desirous of especially complimenting visitors, to give them seats well up in front.

The practice has been reversed in the Presbyterian church at Lebanon, Ohio, or rather the back seats are closed entirely and the giggling girls and bad boys who have heretofore held the line of reserves in the back rows have been sent up front and only the dignified and quietly disposed elderly persons have the entree to the secluded quarter.

The reason for the change is obvious, and the custom could be adopted elsewhere to the gratification of those who attend service for the purpose of worship.

For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. In the event that local option carries on the 7th day of next May all the saloons and wholesale houses that are doing business in the City of Maysville will perforce close when their county license expires. The city will then have to refund to them the amount of their unused city license, which will amount to in the neighborhood of \$4,000. The fiscal year of the city commences the first day of March. The amount of revenue derived from saloons on the first day of January in the succeeding year is always anticipated in the levy. The income from this source is approximately \$9,000, and as the levy for the year 1907 has already been made, and as this \$9,000 has been figured in the levy for Member Dodson committing the incinerating the current year, the taking away of this prior to June 4th." amount of revenue would occasion a deficit of \$13,000, which revenue must be made up in some manner.
